PROFILE

A Frontend Developer with entry level experience specializing in web development, user interface design and I am a highly motivated and detail-oriented front-end developer with a strong foundation in HTML, CSS, and JavaScript. Eager to contribute my skills and creativity to dynamic projects, I bring a fresh perspective and a dedication to crafting visually appealing and intuitive user interfaces.

PROJECTS

Form validation using JavaScript

GitHub link: https://sathish7297.github.io/Front-end-form-validation/

Description :

- Developed an interactive and robust form validation project using JavaScript, showcasing my proficiency in client-side scripting. The project aimed to enhance user experience by ensuring data accuracy and completeness.
- **HTML/CSS :** Structured the form with clean and user friendly HTML/ CSS Layouts.
- **JavaScript** : Leveraged JavaScript for client side validation ,ensuring a seamless and responsive user experience .

E-Commerce Website

GitHub link: https://sathish7297.github.io/e-commerce-websites/

Description :

- Revamped the search functionality of an e-commerce website by employing JavaScript arrays to optimize and streamline the search process. This project aimed to enhance the user experience by implementing a more efficient and responsive search system.
- **HTML/CSS:** Structured and styled the front-end to complement the array-based search functionalities.
- **JavaScript Arrays:** Employed JavaScript arrays to manage and manipulate product data efficiently.

CRUD Operations using React js

GitHub link: https://sathish7297.github.io/crud/

Description :

- Enveloped a dynamic React project showcasing comprehensive CRUD (Create, Read, Update, Delete) operations without relying on external APIs. This project demonstrates my proficiency in React, state management, and efficient local storage usage to create a seamless and responsive user experience.

CERTIFICATIONS

- Successfully completed Frontend with React JS training at Besant Technologies in Velachery , Chennai.
